FIRST BASKET BALL GAME OF SEASON

K. H. S. Girls Play Team From Saugerties Friday Afternoon—Score 26-13 in Favor of Kingston.

Friday afternoon after school the high school girls opened the basketball season with a game with a team of girls from Saugerties high. Although it was the first game of the season it was as hot a little fight as one could wish to see between two teams of girls.

The game started promptly at 4:45 and no sooner had it started when one of the Saugerties girls made a basket, which act was duplicated almost immediately by Anna Hurley. A foul was called on one of the Kingston girls, but Saugerties failing to make her point, the score remained the same. It was then only the matter of a few moments when Miss Hurley again made a basket. It seemed all along that if Kingston won she would have to fight hard for her victory. Miss Hurley seemed to realize this fact keyed herself up to the situation to such an extent that her playing was beyond reproach. Just before the quarter ended she shot a basket from such an intricate position as to win a deafening applause from the onlookers, and the quarter ended with the score 6-2 in Kingston's favor.

The second quarter had no sooner started when Mary Hutchins, Kingston's left forward, took her turn at shooting baskets and scored another point for Kingston. Her action was duplicated again by Miss Hurley. Another foul was called on Kingston, but Saugerties again failed to make the basket. Miss Hutchins seemed now to be racing with Kingston for points for she again made a basket. Up until this time Saugerties had been playing on the defensive, now she turned and through no fault of the Kingston girls made a basket. This act seemed rather as an inspiration to Miss Hurley and three times in succession she shot baskets from almost every possible angle, causing the onlookers to try to outdo each other in yelling. Whether it was the shouting or the fear of an overwhelming defeat no one knows, but any way Saugerties woke up and made a basket just before the half ended, and the score stood 18-13 in Kingston's favor.

The second half started and Saugerties took the lead, making two baskets in the first few minutes. This half both teams played their best, and not so many baskets were made as in the first half. Miss Hurley, however, made two more baskets in this third quarter, one of them being her usual basket made just before the whistle sounded.

The last quarter both teams seemed to be tired, but nevertheless their playing showed coolness and presence of mind. This quarter, despite the fact that she had made all of the baskets except the two Miss Hutchins had made, Miss Hurley made only two more baskets. The game ended with the score 26-13 in favor of the Kingston girls.

The playing of the girls might be termed marvelous for their first game—it was the best advertisement that they could possibly buy. The team work was beyond reproach. It might be added that the Saugerties team was no easy team to play for. The first game, and if the girls keep up their good work there is no reason whatever for their not keeping up the record that has been set for them in former years. The line-ups were as follows:

Kingston—Mary Hutchins, first half; Mildred Stewart, second half; Anna Hurley, rf; Minnie Simpson, c; Helen Wood, rg; Pauline Van Wagonen, first half, and Mary Bruyn, second half.

Saugerties—Miss Wemple, rf first half; if second half; Dorothy Cole, if first half; Rachael Cole, c; Miss L. Cole, rg; Miss Maher, lg; Miss Cakener, rf second half.

Ringling Chime Bells.
When first introduced, chime bells were rung by a number of men, each grasping a rope from one particular bell and striking it at the precise moment the leader pointed a finger at him for a signal. The custom originated in Europe, and was imported into this country when the first chimes were brought over. This was shortly after the country's independence was declared, the new bells being placed in Trinity church, New York city. It required seven men to ring the seven bells, and it was not until 1800 that a plan was devised whereby one man alone was able to ring the bells.

INSURANCE MEN HOLD A BANQUET

Superintendent John E. Mahar, who is in charge of the force of the Prudential Insurance Company in the district comprising Ulster, Greene, Delaware and a part of Sullivan counties, and Theodore H. Lander, of the home office of the company at Newark, N. J., were the speakers at the annual dinner and meeting of the company, which was held Saturday afternoon at the West Shore Hotel.

Mr. Mahar complimented the employees upon their loyalty to the company, and referred particularly to the good work done by the men of his staff in the support of the Y. M. C. A. campaign, the Liberty loan issue and the Red Cross campaign.

Mr. Lander also complimented the men upon their efficient service. Mr. Lander also made some eloquent remarks relative to the war conditions. He stated that Americans would gladly make the sacrifice that they would have to make in the cause of democracy and equality. He emphasized the value of conservation at this time, not only conservation of food but of money and energy as well.

Informal addresses were made by many of the employees, and the various phases of the work of the company were discussed.

Was a Successful Fair.

The report of Miss Georgia Deudner, treasurer of the Ladies' Aid Society of the Rondout Presbyterian Church showed that at the annual fair and turkey dinner held last month the sum of \$646.06 has been cleared. While this was not quite as large an amount as last year yet with conditions as they are at the present time the fair was a decided success.

LAKE FREIGHTER PROBABLY LOST

By Telegraph to The Freeman.

Milwaukee, Wis., Dec. 10.—Grave fears for the safety of the freight steamship Hemlock and her crew of thirty men are felt here today. The Hemlock bound for Milwaukee with coal, is three days overdue and no word has been received from her.

Driven around in the storm which raged over Lake Michigan the 8,000-ton freighter Presque Isle is being pounded to pieces on Centerville Reef in Lake Michigan ten miles north of Sheboygan. Two of her plates are stove in and it is believed the vessel will be a total loss.

In response to wireless appeals from the Presque Isle three tug boats put out from Sheboygan and rescued the crew of 28 men after a desperate fight with the storm.

The Presque Isle carried a cargo of coal and was owned by the Cleveland Cliff Company. The Hemlock is owned by the Interlake Steamship Company.

PORT EWEN.

Jonathan Van Aken, chairman of the board of trustees for the last fourteen years, received the gift for the church in a few well-chosen words and also gave a brief history of the church.

The Adult Bible Class of the Methodist Episcopal Church will meet at the home of Mrs. Mary Holliday on Bowne street this evening.

Sleigh bells and sleighs were heard and seen in our village Sunday, reminding one of the approaching Christmas-tide.

The Woman's Foreign Missionary Society of the Methodist Episcopal Church will meet at the home of Mrs. E. A. D. Potter on Broadway Wednesday afternoon at 3 o'clock.

C. S. WOOD

Dainty Camisoles

Camisoles—that is corset covers, by a less matter-of-fact name—are never neglected when the Christmas list of

salable finery is made up by buyers for the big shops. This year they have presented shoppers with many lovely camisoles of ribbon, or net and ribbon combined, or crepe georgette and ribbon. Those shown in the picture are in pale pink, which is the favored color for fine underwear.

Very wide satin ribbon, decorated with small tucks, lace insertions and French knots in pink and blue silk, serves to produce the camisole at the top of the picture. It is edged with a frill of pink crepe and supported by shoulder straps of satin ribbon.

The camisole below it is made of fine, white net, banded with satin ribbon. The same ribbon is used for shoulder straps and for drawing up the fullness over the bust. It is finished with a small bow at the front. A flat elastic run in a narrow hem in the net, adjusts the camisole to the waist, shabby with use.

Built for Giant.

Gardner, Mass., has in one of its parks what is believed to be the largest chair in the world, made for actual use. It is 5½ feet square at the base, and 12 feet in height. The seat is six feet from the ground, so that those who wish to sit in it have to literally climb up into the chair, like children. The chair weighs 1,200 pounds. It was presented to the city, and is an object of considerable attraction to strangers.

Meat or Shucks.

Sometimes I think the best part of cracking butternuts is cracking them. What are we going to get? Meat or shucks? Never mind if there be nothing more than an empty hole once in a while! The next time will be all right. Anyhow, we have gained a bit of muscle in the arm that swung the hammer. Makes us stronger for cracking the harder nut tomorrow.—Vincent in Farm Life.

The Model "Horse."

I will say this respecting the horse—and I have had much to do with every variety and kind—that for docility, for faithfulness and for cheapness of maintenance, give me the horse who never sheds his coat or is bothered with ingrowing toenails, who remains wherever you place him and is ever on the job when he's wanted. That horse is the sawhorse.—Zim in Cartoons Magazine.

SECRETARY BAKER'S WEEKLY WAR REVIEW

By Telegram to The Freeman.

Washington, Dec. 10.—Only "skeleton divisions" of German troops now are on the Russian front. All veteran units now are concentrated on the western front, according to the weekly review of war conditions issued today by Secretary of War Baker. The British, however, the secretary says, have now consolidated all their lines and the western front can be expected to withstand any new assaults.

The secretary's review follows: "The German counter offensive in the Cambrai area was followed up with increasing energy throughout the week.

"As a result of the extreme heavy hostile pressure exerted along the eastern and western flanks of the new salient, the Germans were able to compel the retirement of the British, causing the loss of a certain area of the terrain, less than one-third of that gained by the victorious British offensive of November 20. It would appear that the enemy fully expected to break through on a broad front. In this the Germans, in spite of their persevering efforts, were unsuccessful. It is believed that the readjustment of the British line will permit them to hold on to their new positions in the face of further attacks. The retirement of the British forces was executed with great skill and was carried out with relatively small losses.

"An American railway unit in the zone of active operations took part in the work of repelling the first German surprise attack in the neighborhood of Conzeaucourt, and exchanging their shells for rifles, fought off the enemy, side by side with the British. This German parrying thrust, the most powerful and successful blow aimed at the British during the past two and one-half years, coming as it did immediately after the British victory in the same area, serves to emphasize the reviving strength of the Germans in the west.

"Germany, by leaving only skeleton divisions in the Russian area, by concentrating all available guns, munitions and men in the theater of operations in the west, have been able to mass a relatively greater force than she has ever been able to mobilize in France in the past. This explains the success which the enemy was able to achieve in driving the British back from Cambrai. It would not do for us to minimize its importance.

"The enemy realizes that he finds himself temporarily in a singularly fortunate position, and he can be counted upon to take the utmost advantage of it. The magnitude of the task before us can be more fully realized when measured by the success which the enemy is still able to gain. It means that we must speed up our military effort. The United nation must stand squarely behind our soldiers.

"It is not sufficient to prepare to fight; we must prepare to win.

"Though the winter months of the war the belligerents at this advanced season of the year had been content to hold the positions won, waiting for the more favorable weather of early spring to continue operations, this year the western front is the scene of numerous engagements.

"During the period under review the enemy has been very active along this entire front. Three hostile raids were executed southwest of La Bassée, while the British made two successful raids in the neighborhood of Warmonet.

"Increasing activity of a local character is reported from various sectors in the region of Armentières, hostile infantry actions are noted. Artillery bombardments took place east of Ypres and at points west and southwest of Cambrai. The number of hostile raids executed along the French front northwest of Rheims, in Argonne, in the region of St. Quentin, in the Vosges, and particularly in upper Alsace, as well as the increasing enemy artillery activity north of the Chemin Des Dames, on the right bank of the Meuse, in Chaume Wood, Malson de Champagne, and upper Alsace, would appear to indicate that the enemy is feeling out the French front with a view to identifying the strength of the units opposing him.

"In the Italian theatre, after a week of intensive artillery preparation in the region of the Asiago Plateau, the enemy launched a well planned offensive, which partially penetrated the Italian line. After desperate fighting the Austro-German forces, taking advantage of the terrain gained by a series of powerful frontal attacks along a six-mile stretch on the south slope of the Monte Castelomberto, were able to break through locally and capture a relatively large number of prisoners. The withdrawal of the Italian forces from the Meletta salient was carried out under the protection of artillery. Attempts of the enemy to disrupt Italian positions south of Golic were stopped by a stubborn defense. The fighting continues with great fury.

"The Austro-German forces are making desperate attempts to debouch through the lateral valleys of the Brenza and Gadenca leading to the main Brenza valley and the plains below. Enemy concentrations are extremely heavy in this area, and it will require the full energy of the forces assembled here to check further hostile advance. Along the Piave the Italians are holding the line well. The enemy has made repeated unsuccessful attempts to gain further foothold on the right bank of the river. Artillery activity in the region of the lower Piave is reported.

"Our declaration of war against Austria-Hungary now associates intimately with the struggle going on in Italy.

"In the eastern theatre the present Russian government has entered upon an armistice with the enemy which includes the entire Russian front from the Baltic to the black sea as well as the region of the Caucasus.

"The Roumanian armies, while repudiating all attempts by the enemy to fraternize with them, have been by force of circumstances to accept

the proposals for a truce. The armistice is to remain in force until December 17th.

"In Palestine Turkish forces attacked the British lines along a five-mile front east of Ramallah. The attack was repulsed. The Turks are busy strengthening their defensive positions in front of Jerusalem.

"The success of British operations in Palestine has had a very decided military effect throughout the Ottoman Empire, and much of the pressure which the German higher command had hoped to bring to bear in Mesopotamia has been relieved.

"In Mesopotamia the British are carrying forward their operations on the right bank of the Diala river with great success, further concentrating their right flank. It is interesting to record that a small Russian detachment co-operated in this engagement with the British.

"One of the two remaining combatant corps of the enemy operating in German East Africa was compelled to surrender to the British. The other, together with the German governmental authorities, has retired in Portuguese East Africa, thus clearing German East Africa of all hostile units. The British are in pursuit of the retreating enemy.

"In the Balkans artillery duels are reported, and successful Allied destructive fire was carried out."

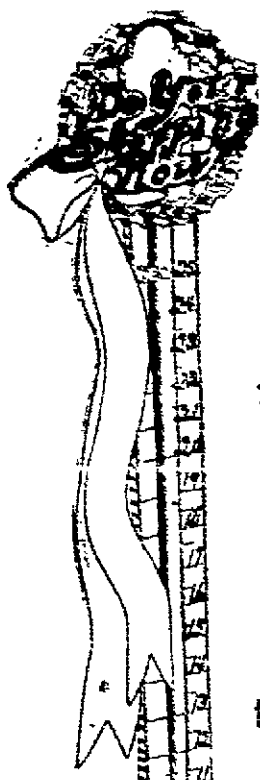

A Dutchman's Capture.

During the Revolutionary war a Dutchman was running from the English. In crossing a field he stepped upon a rake, the handle flew up and hit him in the back of the head. Without looking around, he dropped to his knees and said, 'I kive up, I kive up, mynheer soldiersmans. Hoorry for King George.'

Increase in Muskrats.

As an illustration of how rapidly the muskrats increase in some districts, the Bavarian commission which reports on the matter says in Schlusburg in 1911 there were ten muskrats—we don't know who counted them—while in 1913 the number had increased to about 300, and in 1916 to more than 1,000. In some places it is said the energetic muskrats had driven away the water birds, "after destroying the eggs and young had taken possession of the floating nests and converted them to their own use."—Farm Life.

Nativity of Peach Tree.

The peach tree is a native of Persia and China. It was brought to Italy by the Romans in the time of the Emperor Claudius, was cultivated in Europe as early as 1550 and brought to America about 1680. Its name is derived from Persico, its native country. The ancients regarded it with distrust, as according to Pliny they supposed the king of Persia had sent it into Egypt to poison the inhabitants with whom he was at war. The Chinese have traditions of a peach tree of knowledge and another of immortality.

Thought Something Missing.

Marion's grandfather was Scotch and a musician. Consequently he was delighted to entertain a gifted professional countryman, who was to appear at a theater. After dinner, when the guest had donned his gills and was waiting for the car to take him to the theater, the children were admitted to the living room. Marion eyed the celebrity in wonder and awe, finally walking up to him, and as she touched his bare knee in amazement inquired, "Where your pants?"

YOUNG BILLIARD STAR

Welker Cochran May Be Able to Wrest Title From Hoppe.

Youngster Has Shown Such Remarkable Improvement Recently That He Is Being Advanced as Suitable Opponent for Champion.

Lovers of the game of billiards are pinning their hopes on Welker Cochran, the young western billiardist, to wrest the crown of champion from Willie Hoppe, who has won it for several years and who seems to outclass the field. Sutton, Slosson, Cutler and the others do not appear to be able to cope with him with any degree of success.

Cochran used to be known as the boy wonder when he was touring the country with Firmin Cassagnol, the French champion, but he has outgrown that sobriquet now as he has become of voting age. Cochran has been giving exhibitions recently in New York and he has shown such remarkable improvement over his play of a year or two ago that billiard men are seriously advancing him now as a suitable opponent for Hoppe.

In fact, he is the only hope of the balklineers. If Hoppe is to defend his title again before he gets too old to handle a cue it seems to be up to Cochran to furnish the opposition. He is the only player on the billiard horizon who figures to have a chance with the champion.

The same stagnation that exists in the heavy-weight division of boxing has come over balkline billiards. Each of these branches of sport has developed a champion who so far outclasses his field that he has no one left to give

Welker Cochran.

him a contest. Hoppe has been forced into voluntary retirement. The old timers like Sutton, Slosson, Cutler and Mayer have taken the count from him so often they have given up hope of beating him.

Cochran is steady in his play and has constantly improved. He has mastered close play, which was the weakness he showed a year or more ago, when he first claimed attention, and billiard experts think he will soon be ready for Hoppe.

Cochran, who is now twenty-one years old, was born in Manson, Ia., not far from the home of Frank Gotch, and grew up to be a great friend of the wrestling champion. He started to play billiards when he was fourteen and has been a professional for four years. There is no indication that Cochran, like Hoppe, was a born billiard player or had been gifted, as is said of Hoppe, by a pre-natal influence. But he took pretty readily to billiards.

He started to play when his parents sent him to Chicago to school. According to Cochran his schooling suffered greatly at the expense of billiards during his stay there, but he developed so rapidly that Firmin Cassagnol took him in tow for a tour of the country and taught him much that he knows of the game.

SHE ARRESTED HER STEP-FATHER

Grew Tired of Him Coming Home
Drunk Saturday Nights and Es-
corted Him Against His Will to
Police Headquarters.

With a firm grip on the collar of Patrick O'Brien, 43 years old, Miss Ethel Schlecht, of No. 92 Foxhall avenue, walked into police headquarters at the city hall about 10 o'clock Saturday evening, and lodged a charge against Patrick, who is her step-father, of being drunk and disorderly.

Patrick later spent the night and Sunday in the county jail, and this morning was arraigned before Recorder Lang. He is a man slightly under medium height and evidently tipped the scales at the same weight as his step-daughter, a charming young miss of about 15 years old, who had no difficulty in landing her step-father behind the bars.

Miss Ethel when called upon to tell how it happened informed Recorder Lang that she had grown tired of her step-father coming home drunk Saturday nights and using un-
der language and creating a disturbance.

"What do you want me to do with him?" asked the court.

"I don't care," replied Miss Ethel with a smile as she glanced at her step-father, who was sober this morning.

"Is your mother here?" asked the court.

"Yes, sir," replied Miss Ethel, and her mother, who was sitting in the court room, came forward.

Questioned by Recorder Lang she said that her husband was all right when sober but he would come home drunk Saturday nights.

"How do you plead?" asked the court, suddenly turning to Patrick.

"Guilty," replied Patrick.

"I think a jail sentence would be about right for your husband," said Recorder Lang, turning to the wife, "but will leave the disposition of the case to you. Do you want him jailed?"

"Give him another chance," replied Mrs. O'Brien with tears streaming down her face. She explained her reason for giving her husband another chance by stating that it was winter and the family needed the money he was able to earn when he worked. They have a baby three months old.

Miss Ethel was the only one in the family, aside from Patrick, who was able to work as the mother had to stay home and care for the family.

Recorder Lang said he would grant Mrs. O'Brien's request and free her husband and told her to come back next Monday and inform him how her husband had behaved.

The court warned Patrick that if he was not more careful in the future he would spend some time in jail.

Fair Warning.

In the reign of Charles II a certain worthy divine at Whitehall thus addressed himself to the auditory at the conclusion of his sermon: "In short, if you don't live up to the precepts of the gospel, but abandon yourselves to your irregular appetites, you must expect to receive your reward in a certain place which has not good manners to mention here."—Lancet.

BOY SENT AWAY AT MOTHER'S REQUEST

Francis Messing Committed to Cath-
olic Protective Home of City
Whose Initiation of Young Boys
Was of Shocking Nature

Francis Messing, 14 years old, of Ardsley street, was committed to the Catholic Protective Home this morning by Recorder Lang at the request of the boy's mother. The boy was arrested a week ago by Sergeant Hanley and Phinney on a warrant issued at the request of a mother of a five year old boy who complained that young Messing was the ringleader of a club of young boys whose initiation of little chaps from five to six years old was of a shocking nature.

The boy was arraigned before Recorder Lang in children's court last Tuesday and an adjournment was taken until Thursday of this week.

This morning the boy and his mother appeared at the city hall and at the mother's request Recorder Lang took the action stated.

Demand Attention.

Irene's mother was ill, and sympathizing visitors sat at her bedside, directing all their attention to the invalid. The little girl stood by quietly for a while, till she could bear the neglect no longer. Holding up her hand, she began looking for some injury, and finding an imaginary trace of a forgotten hurt, she exclaimed reproachfully: "Yes, but look at me. I don't care a fig!"

Eliminates Headlight Glare.

A novel device to eliminate the glare of automobile headlights covers the front of the electric bulb and directs the rays of the lower half so they are added to the light thrown by the upper half of the reflector.

MISS CLARA C. HAYWOOD.
GIRL BILLIARDIST STARTLES EXPERTS.

Miss Clara C. Haywood, of Philadelphia, who defeated several professionals in a special tournament held for the benefit of the Billiard Players' Ambulance Fund in New York. The young lady demonstrated that skillful wielding of the billiard cue is by no means solely a masculine accomplishment. Her skill at the table is remarkable. Miss Haywood is the pioneer of her sex in the billiard field.

Saves from 15% to 25% on every letter-writing hour

SELF STARTING REMINGTON TYPEWRITER

This new invention permits your typist to keep her eyes on her copy. The machine doesn't have to be looked at, or the scale watched. The time saving is automatic. There is no other typewriter like this. Fully protected by Remington patents.

The Self Starter, while adding to speed, adds nothing to the cost

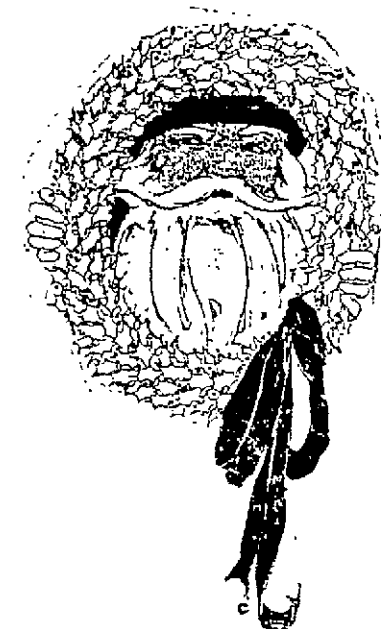

of the typewriter. It is part of the machine.

Try the time saver on your own letters. We are constantly making demonstrations throughout the city—they involve no obligation on your part. Shall we put you on the list? Write or phone us. Descriptive folders also mailed on request.

LUCKEY, PLATT & CO.

The Daylight Store of Poughkeepsie
For Young or Old, Man or Woman, Boy or Girl, Soldiers,
Sailors, or Civilians—This is the Store of
Gifts for All

A great deal of thought, by many experienced people, has gone into the gathering of these Christmas stocks.

We have succeeded in gathering good gifts, in large quantities and greater selections than ever before.

Especially we have—purchased unusually fine assortments of merchandise of a practical, serviceable character gifts for personal use or wear—for this is going to be more than in recent years, a Christmas of practical gifts.

This Store Has a Million Gift Things
LUCKEY, PLATT & CO.

Get Acquainted.

One reason people do not appreciate their neighbors better is because they do not know them. Most of the misunderstandings arise from the fact that people do not understand each other. A good plan would be to learn more about your neighbors so that you will appreciate them better.—Exchange.

Makes His Own Castor Oil.

A druggist at Sander, U. S. of Colombia, has discovered that he could produce his own castor oil far more cheaply than import it. This has started a great boom in growing castor oil plants, and shipments of castor seed meal and of the beans are being made to New York.

Home Companionship.

If the boy is not a companion to his father it is generally because the father was not a companion to the boy when the boy was a little fellow. Companionship is something which must grow through the years, especially for two people who live under the same roof and share the same fortunes.

SEND GLASSES AND HELP CATCH U-BOAT

Navy Department In Urgent Need of Binoculars, Spyglasses and Telescopes—Will Pay For All Glasses Accepted—Chance For Patriotic Service.

Besides camera lenses, which are currently needed by the War Department, as stated several days ago in The Freeman, there is an urgent need by the Navy for binoculars, spyglasses and telescopes, and the New York State Defense Council has adopted a recommendation of Governor Whitman that the people who have such glasses be urged to turn them over to the government for use in the war.

Until recently the United States imported practically all lenses of letter class used for observation glasses, and even now American facilities cannot supply the demand for glasses to be used by observers on the hundreds of ships being placed in commission.

Every ship, whether in the Navy or merchant marine, requires many more men on lookout than heretofore because of submarines, and everyone should remember that he or she may be the means of bringing destruction upon a U-boat by sending a glass to the government.

Glasses should be sent to the government irrespective of size, age or condition.

To conform to the government policy of not accepting donations, the Navy Department will pay one dollar for each glass accepted and return those unfit for use.

Those sending glasses should attach a card bearing his or her name and address and forward to Hon. Franklin D. Roosevelt, Assistant Secretary of the Navy, care of the Naval Observatory, Washington, D. C.

Anyone who for any reason cannot take an active part in this war on the Kaiser may help to catch one of his submarines by sending a glass to the Navy.

FARMERS' INSTITUTES.

At Ellenville and Woodstock on December 17 and 18.

The Bureau of Farmers' Institutes, which is under the direction of Edward Van Alstyne, is the educational branch of the State Department of Farms and Markets. During the present winter the Farmers' Institutes promise to awaken greater interest and to be productive of better results than ever before. About 375 institutes have been arranged, and before the winter is over, more than 100,000 persons will undoubtedly have been reached.

Particular attention will be given to the food problem and to fundamental matters relating to agriculture growing out of the acute conditions brought about by the war.

Institutes to be held in this vicinity this next week together with local committees in charge are listed as follows:

Ellenville, Ulster county, December 17: local committee: H. L. Smith, 34 Maple avenue, Miss Bessie Tice, Spring Glen.

Woodstock, Ulster county, December 18: local committee, C. N. Riskey, Mrs. George Riskey.

The institutes depend for much of their success on the enterprise of the local committees in charge in awakening interest and enthusiasm in the community where each meeting is held. The speakers on each circuit are specialists in the line of farming that is practised in the county in which they visit. Those who will lecture in this vicinity next week are: D. P. Witter, Dr. M. Hamilton and Dr. Lucia E. Heaton.

HURLEY.

Hurley, Dec. 10.—At Hurley church on Sunday morning last, there was seen for the first time the baptismal font lately given to the church. The font is a beautiful affair in antique oak, beautifully carved in ecclesiastical style and bears a silver plate to the effect that the font was presented to church by Jacob V. Merritt in memory of his father and mother, Thomas H. Merritt and Lucinda Merritt. It is a most beautiful tribute from a loving son to his honored parents.

At the Christmas entertainment to be given later on in the month, there will be taken up a collection for the benefit of the starving Armenians. The president of the United States and prominent people of all beliefs and classes have warmly recommended this project; all over the country collections are being made for this object. As is known, the Armenians have been treated most bitterly and their need seems more than that of any other people at present.

Miss Margaret Hiller came home from Poughkeepsie on Sunday to spend a few days at her home.

The postmaster has both the Thrift Stamps and also the Saving Certificate Stamps now ready for any who may call. Both are excellent ways of saving the smaller sums with the

added security of the government back of them. There is a margin of interest in both varieties. Information will be gladly given about them. It may be said right here that there is a steady and increasing demand for them.

THE VLY.

The Vly, Dec. 10.—Now that old winter has come, don't forget the Sunday school. Let us keep spiritually warm, if cold winds do blow.

Mr. and Mrs. William Myers of Saucertown have been visiting the latter's parents, Mr. and Mrs. G. G. Ackert.

Ross Osterhout visited the school one day last week. The children were all glad to see their old friend and teacher.

Mrs. Ray Davis and daughter of Lyonsville visited their aunt, Mrs. Irving Jansen, Thursday last.

Religious prayer meetings are quite well attended.

Miss Pearl Lasher of Woodstock spent Thanksgiving week with Mrs.

C. R. Krum. Mrs. M. B. Lockwood called on Mrs. Irving Jansen Thursday afternoon.

The many friends of Arthur Winchell of Atwood are sorry to know he is so ill.

LOMONTVILLE.

Lomontville, Dec. 10.—Mr. and Mrs. Harry Hotaling of Franklin are visiting the parents of the former, Mr. and Mrs. John Hotaling.

Miss Susie Mack of New York spent the recent holidays with relatives here.

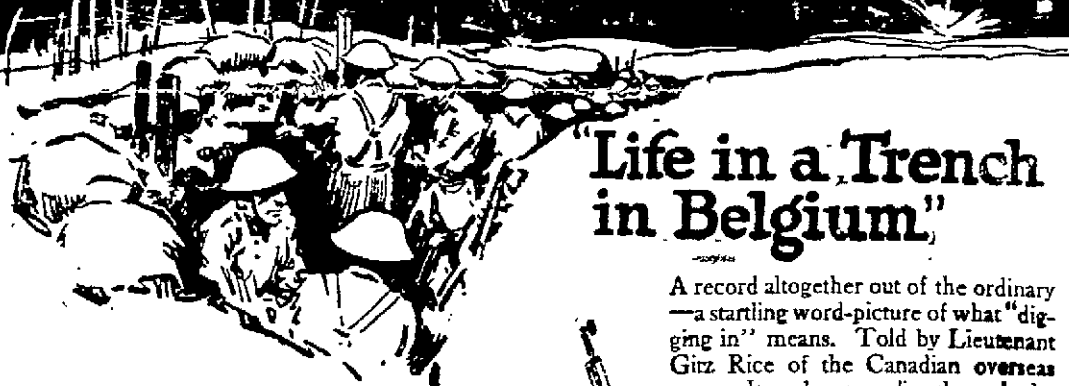

John H. Bush is not enjoying very good health.

Mrs. Richard E. Bush returned from a two weeks' visit to New York on Monday.

Mrs. Stalk and little daughter are visiting Mr. and Mrs. Isaac Wittaker.

Mr. and Mrs. John A. Winchell are entertaining their daughter-in-law, Mrs. Lawrence Winchell, and her son.

Mid-Month List Columbia Records

"Life in a Trench in Belgium"

A record altogether out of the ordinary—a startling word-picture of what "digging in" means. Told by Lieutenant Gitz Rice of the Canadian overseas army. It makes you live through the storm of the famous Battle of Ypres. A2410—75c

"Long Boy"

The great war song that marched East with the Western boys who are bound for France. Long Boy "was as brave as he was thin, when the war broke out he got right in," singing "I may not know what the war's about, but you bet, by gosh, I'll soon find out!" We defy you to keep your feet from tapping time. On the reverse, Arthur Fields, the soldier-composer, sings "I Don't Want to Get Well!" to a fascinating Red Cross nurse. A2409—75c

"Somewhere in France is the Lily"

This clever marching song, introducing the flower emblems of the Allies, has already made a tremendous hit in vaudeville. On the reverse, "When the Great Red Dawn is Shining," a song that has been as popular in England as "Keep the Home Fires Burning." A2408—75c

"Naval Reserve March"

Souza, the march king, is at his best in this great double dance record, and Prince's Band has done the composer's theme full justice. A2398—75c

"Ida! Sweet as Apple Cider"

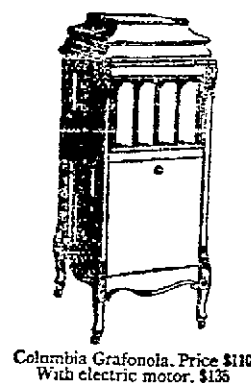

Good old Eddie Leonard's "Ida," recently revived and now played by dance orchestras all over the country. Earl Fuller's Rector Novelty Orchestra has made a wonderful new fox-trot out of this old-time favorite. A2405—75c

Join the Red Cross today. 10 million new members by Christmas. All you need is a heart and a dollar.

"We're Going Over"

Just to listen to this rousing popular hit makes you wish you were "going over," too. On the back the Avon Comedy Four makes its Columbia debut with "I'm Crazy Over Every Girl in France." A2399—75c
